TEACHING

UC Berkeley, Dept of Earth and Planetary Science (1998 -)

EPS 24 Oceans in the News (1) Freshman seminar (S2008 - PRESENT)

Description: "Not one week goes by without major articles in print/online media such as The San Francisco Chronicle, New York Times, etc. News items: Pollution?, an ice-free Arctic Ocean?, Law of the Sea?, Fisheries?, Economics and Commerce?, Sea Level Rise?, An ocean fix for the CO₂ problem?, Ecological discoveries? and more. The seminar delves into the details (down to original documents) of several of these focus areas over the course of the term."

EPS C82 Oceans (2 units; post 2011 3 units) The geology, physics, chemistry, and biology of the world oceans. The application of oceanographic sciences to human problems will be explored through special topics such as energy from the sea, marine pollution, food from the sea, and climate change. (Fall 2003; Fall 2004, Fall 2006 - Fall 2012, Fall 2014) EPS/IB/GEOG C82 has students with very diverse backgrounds (athletes to science majors). Aim of the course is give students a working vocabulary of the ocean and its role in day to day life. EPS C82 was selected as the first Letters and Science Big Ideas Courses and renamed as "Oceans" and expanded to 3 units in 2012.

EPS 103/203. Introduction to Aquatic and Marine Geochemistry. (3; 4 post 2010) Three hours of lecture per week. Course covers the global water cycle; major processes governing the distribution of chemical species within the hydrosphere; mass balances, fluxes, and reactions in the marine environment from global to submicron scales; relationships to physical, biological, and geological processes; geochemical tracers and tools. A major focus is on carbon chemistry. The aim of this course is to build 'vocabulary' in marine geochemistry for students interested in Marine sciences (*new Fall 2000; Fall 2002, yearly S 2007 to present*) 100%.

EPS 260. Research Seminar. (2) Aimed at orienting new graduate students and senior undergraduate students to the department of Earth and Planetary Science. (F 2009, F2010).
